

# Asigra End-User Training Overview

## V13.x

## End-User Modules

Provide end-users with everything they need to know about Asigra Cloud Backup™. Our e-Learning course for end-users will put your customers at ease with Asigra Cloud Backup and result in fewer requests for support. Each of the course's five (5) modules contains simulations and scenario-based learning that will help customers avoid common pitfalls. End-of-module knowledge checks reinforce the key takeaways and ensure customers are comfortable with cloud backup.

### Module 1 – Introduction to Asigra Cloud Backup™

- **Lesson 1** – The Backup Industry
- **Lesson 2** – Backing up and Optimizing Your Data
- **Lesson 3** – Securing and Protecting the Integrity of Your Data

### Module 2 – Getting ready to backup your data

- **Lesson 1** – Setting up the DS-Client Database
- **Lesson 2** – Installing DS-Client
- **Lesson 3** – Configuring DS-Client
- **Lesson 4** – LAN Storage Discovery

### Module 3 – Backing up and restoring data

- **Lesson 1** – Overview of the Backup Process
- **Lesson 2** – Running Backups
- **Lesson 3** – Restoring Backups

### Module 4 – Managing your backup solution

- **Lesson 1** – Performing Common Activities I – Data Deletion and Retention
- **Lesson 2** – Performing Common Activities II – Validation Restore and Scheduling
- **Lesson 3** – Performing Common Activities III – Synchronization
- **Lesson 4** – Managing DS-Client

### Module 5 – Asigra Mobile Family

- **Lesson 1** – Asigra Mobile Family Overview
- **Lesson 2** – DS-Mobile Client – Installation and Configuration
- **Lesson 3** – DS-Mobile Notebook Client – Installation and Configuration
- **Lesson 4** – Android DS-Client – Installation and Configuration

## About Asigra

Trusted since 1986, Asigra provides organizations around the world the ability to recover their data now from anywhere through a global network of partners who deliver cloud backup and recovery services as public, private and/or hybrid deployments. As the industry's first enterprise-class agentless cloud-based recovery software to provide data backup and recovery of servers, virtual machines, endpoint devices, databases and applications, SaaS and IaaS based applications, Asigra lowers the total cost of ownership, reduces recovery time objectives, eliminates silos of backup data by providing a single consolidated repository, and provides 100% recovery assurance. Asigra's revolutionary patent-pending Recovery License Model provides organizations with a cost effective data recovery business model unlike any other offered in the storage market. Asigra has been recognized as a Gartner Cool Vendor and has been included in the Gartner Magic Quadrant for Enterprise Backup and Recovery Software since 2010. In 2015, Asigra Cloud Backup was also named the **Top Enterprise Backup Solution** and achieved silver in Storage Magazine's **Products of the Year**.
